

Unit 1.3 Percentage

Paper 1: Basic

1. In 2000, the number of international visitor arrivals in Singapore was 7 690 000, correct to the nearest ten thousand. By 2018, this number had increased by 140.6%.
Calculate the number of international visitor arrivals in 2018. [2]
[N21/I/8]
2. A water tank is 60% full.
16% of the water in the tank is used.
There are now 378 litres of water in the tank.
Calculate the capacity of the tank when full. [3]
[N20/I/14]
3. The table shows information collected by Huma about her driving in 2015.
- | | |
|---------------------------------------|-----------------------|
| Total distance driven in 2015 | 19 629 km |
| Average price paid for petrol | \$2.42 per litre |
| Average petrol consumption of her car | 6.7 litres per 100 km |
- The total distance driven in 2015 is 35% more than she drove in 2014.
Calculate the total distance she drove in 2014. [2]
[N16/I/19(b)]

Paper 1: Intermediate

4. The estimated number of Bengal tigers increased from 3200 in 2010 to 3890 in 2016.
The number increased by $r\%$ every year.
Find the value of r . [2]
[N19/I/5]
5. Parveen runs a squash club.
58 of the members are adults and 37 are children.
Her aim is that at least 70% of the members should be adults.
Work out the smallest number of adults that would need to join the club in order to achieve her aim. [3]
[N17/I/7]

1. (a) In 2014, the number of passengers passing through Changi airport was 5.41×10^7 .
- (i) Calculate the mean number of passengers passing through the airport each month.
Give your answer in millions, correct to 3 significant figures. [2]
- (ii) The number of passengers passing through the airport in December 2014 was 5.09 million.
Calculate the percentage of the year's passengers that passed through the airport in December 2014. [2]
- (b) In 2013, the number of people from Europe that visited Singapore was 1.591×10^6 .
In 2014, this number increased by 1.6%.
Calculate the number of people from Europe that visited Singapore in 2014.
Give your answer in standard form. [2]
- (c) From 2013 to 2014 the total number of international visitors decreased by 3.1%.
In 2014, the total number was 1.509×10^7 .
Calculate the number of international visitors in 2013. [2]
